YEAR: 2025 DATE	RECORDING TACH TIME	TODAY'S FLIGHT	TOTAL TIME IN SERVICE	Description of Inspections, Tests, Repairs and Alterations Entries must be endorsed with Name, Rating and Certificate Number of Technician or Repair Facility. (See back pages for other specific entries.)
2/6/25				Installed fabric patch on the copilot's side aft fuel strainer fuel line penetration inside the A/C below the seat. Work Done IRT Certificate procedure 1st Manual Appendix E.
				Manually 2/6/25 4326902 A/P

Removed and replaced aft gascolator cover and gasket with PMA part. Stop drilled cracks on the lower engine cowl and copilot's side rear window. Replaced the turn coordinator with a MidContinent Model 1394T100-7B in new condition. Reattached loose electrical bundle tie pad under instrument panel. Sealed up firewall penetrations. Replaced forward fuel strainer gasket with new, fuel leak check found satisfactory. Adjusted the nose wheel steering stops to allow for proper rudder travel. Replaced the nosewheel axle with a new PMA part Univair P/N U86062-056. Replaced nose wheel bearing race with new. Tightened right aileron stop. Secured stab trim indicator wire guide tube. Removed minor surface corrosion from the ELT battery

YEAR:	RECORDING	TODAY'S	TOTAL	Description of Inspections, Tests, Repairs and Alterations
				repacked all wheel bearings. Adjusted brakes and serviced brake fluid reservoir. Lubricated flight control hinge points and elevator jackscrew. Installed 90 degree elbow in the aft fuel gascolator rear fuel line. Fabricated a new line to go from the 90 degree elbow to the aft fuel gascolator, fuel leak check found satisfactory. Removed and replaced all 4 lift struts and lift strut rod ends. Lift struts assemblies installed are in new condition and their part numbers are U85559-002 and U85560-002. These wing strut assemblies are of the FAA approved sealed type. This action satisfies the requirements of AD 2015-08-04 paragraph (i)2 and terminates repetitive inspections. Performed AD 64-05-04 paragraphs (a)-(e), bearing installed at this time is PN 452333. Performed paragraphs 3 and 4 of AD 57-22-01. Visually confirmed AD 85-06-04 is complied with. See annual inspection checklist dated 10/21/24 for more information. All work performed IRT AC43.13-1b, IAW Midcontinent drawing 1394T100-7B rev C, Piper Tri Pacer Owners Manual, FAR 91.207, all previously listed AD's, and FAR 43 appendix D. I certify that this airframe has been inspected in accordance with an annual inspection and was determined to be in airworthy condition.

01/28/2024

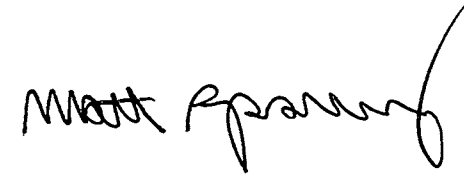

Removed obsolete avionics and associated wiring as required. Installed a new stratus ESG ADS B out transponder and 3i ADS B in receiver with associated antennas (AV-22 and AV-801). Installed a new Trans-cal SSD120-30N-RS232 altitude encoder. Removed taxi and landing lights, replaced with new Whelen Prometheus G3 PMA lights. Removed left and right wingtip navigation lights, replaced them with new Aeroleds Polaris PMA bulbs. Troubleshoot left wing tip anti collision light and found bad solder joints at the output side of the remote triggering unit, resoldered bad joints as required. Replaced left wing tip anti collision light bulb with a new Whelen A627 PMA flash tube assembly. Troubleshoot a direct short in the electrical system and found a faulty fuse block assembly 13051-000, replaced with a new unit. Installed missing dome light lens. Installed an ELT remote switch and wiring. Removed mechanical clock and installed a Davtron M803 digital clock with optional outside air temp probe. Installed a Stratus Power Pro USB charger. Replaced generator circuit breaker with a new unit. Removed Muffler and heat

Airframe Annual Inspection

ELT found to be defective.

Aircraft inspected for damage/rodents/nests from storage. None noted.

Struts and forks removed and inspected IAW AD 15-08-04. No defects noted

Struts cleaned and painted. Struts and forks re-installed and wings rigged.

New Battery installed, Main wheels removed, bearings inspected and re-packed.

Nose wheel removed, bearings inspected and re-packed, new tire installed.

Brakes cleaned and inspected.

New Generator drive belt installed. Cowling, nose bowl and spinner painted.

This Airframe has been inspected IAW an ANNUAL inspection and has been found to be in an AIRWORTHY condition.

 PENNSYLVANIA AERONAUTICAL SERVICE

Instructions for the Use of Log Book

1. This log must always accompany the aircraft to which it refers.
2. No pages shall be torn from Log Book. No erasures, and all entries to be made in ink.
3. Original entries shall be made and signed by manufacturer or seller. All other entries shall be made by Pilot, Chief Mechanic, or other competent person authorized to do so.
4. On journey, the pilot is responsible for carriage of Log Book and entries or omissions therein. Failure to do so will be considered a serious neglect of duty.

5. Before departure on journey, pilot is personally to ascertain that entries in log have been made are correct, and then sign certificate to the effect.
6. Special data such as manufacturers notes, test data, re-conditioning, etc., should be affixed to stubs provided for that purpose in the back of this book.
7. CAA-18-1 Repair and Alteration forms listed on last page.
8. This log book shall be available and produced, on demand of anyone so authorized.
